

# PLAYTESTING AT MIGHTY KINGDOM

## What is Playtesting?

Mighty Kingdom is committed to making awesome games. To achieve this we need to engage with real players. Watching these players play and listening to their feedback is what we call playtesting. This is not a QA (Quality Assurance) role.

## What is expected of me?

We will ask you to play a game for one hour. At the end of the hour you are expected to give us feedback through a survey.

## What happens to my data?

All feedback you give is anonymous when presented back to the team. Your feedback will be kept for a couple of weeks before being archived. For more information, please view [our privacy policy](#).

## When do I get contacted?

The date we contact you will vary as we test our games regularly and create a variety of games. We look for players that represent our target audience. So if you meet the player type for a game we're creating, you will be contacted to play that game.

Please reach out to [Discipline-UXUI@mightykingdom.com](mailto:Discipline-UXUI@mightykingdom.com) if you have further questions.
